## PRAY.

- Building Project:** Pray for the church's various ministries, and pray that God will lead and build up the church to bring out the ministry to the city and community.
- February Mission Prayer:** - Pray for S&S Thank God for this chance to return to C Country - it's been 5 years. Pray that during this visit, they will be able to hear God direction, and have his agenda. Also, for his leading during their time there.
- Members:** **a)** Please pray for those experiencing homelessness in our city as the temperature drops. Wild temporary winter shelters are available, not if everyone will have access to them. Pray that God keeps them safe and provides for their needs. Also, pray that God stirs the hearts of brothers and sisters to find ways to serve these individuals with compassion and creativity, using their unique gifts and resources God has given them. **b)** Please pray for our cell group/fellowship leaders and Bible study leaders. May the Lord richly reward their faithful service and love for their group members. Pray that God grants them wisdom, a loving heart, and strength as they lead and serve. May the Lord continue to bless and nurture our brothers and sisters through the ministry of cell groups, bringing spiritual growth and deeper community in Christ. **c)** Pastor Will's mom fell inside her house and got 7 stitches early this week. Please pray for her recovery.
- Community:** As America's decisions regarding potential tariffs is unclear, let us pray that God will provide for those affected by any large fluctuations in the economy. Let us, above all, pray that uncertainty will direct our gaze toward our certain, unchanging, and sovereign God.
- World:** As an initial ceasefire agreement has been reached in Israel and Palestine, continue to pray for wisdom in the continuing negotiations so that a time of peace can be reached.
